

# Stir, Holy Dogs

I wanna see another summer, not a year-long rain  
I'll leave my door wide open  
I want the freaks to be happy again

When the dogs come with their mouths wide open  
To take me away  
Yeah, the dogs will come with their mouths wide open  
To take me away  
Goodbye for a lifetime  
Don't wanna say goodbye for a while

I wanna swim in the water and watch all the faces swim by  
I wanna be the solution  
But everyone is just the same as I

When the dogs come with their mouths wide open  
To take me away  
Yeah, the dogs will come with their mouths wide open  
To take me away  
Goodbye for a lifetime  
I never wanna say goodbye for a while  
Goodbye for a lifetime  
Don't wanna say goodbye for a while

I cross the finish line, it's over  
And take a ride on my machine  
And everyone is free to follow me  
But my direction will never be seen

When the dogs come with their mouths wide open  
To take me away  
I know those dogs will come with their mouths wide open  
To take me away  
Goodbye for a lifetime  
Don't wanna say goodbye for a while  
Goodbye for a lifetime  
I don't wanna say goodbye for a while

And then I'll sail my sinking ship into the sun  
I'll hear the screams and feel the waves from everyone  
In the end when all is done I'll start anew  
Maybe I'll come back for you
