

# Stone Sour, Kill Everybody

I used to think if I die in an evil place  
Then my soul wouldn't be able to make it to Heaven  
But now...fuck

Everyday I get closer and closer to releasing this on you  
Roll it in, I can snap it in half and let the other make this happen to you  
All I see is someone afraid of my eyes  
It's inside me  
You're all abortions to me  
Fucking lying to me as if I don't need an apology  
I don't give a fuck who you think you are  
Go away

Anyway, you make me sick and it doesn't help your case  
It's so serious I can't stop laughing  
And I cannot wash my mouth of this taste

You try to destroy  
Afraid to face the facts  
I don't know how much longer I can live a lie  
I want the whole world to burn every single thing  
For once it's not on my head

Killing everyone  
Killing everything  
Killing everyone  
Killing everything

My arms are dead and my veins are too  
And I'm starting to believe  
My head is shaking and I feel my smile  
Like I've written this on a hardened ?

No-ones crying anymore  
I am closing the door  
I am nothing but a ?  
My mind is a weapon  
My finger's a gun  
It's time that I give you my pain

Killing everyone  
Killing everything  
Killing everyone  
Killing everything
