

Stonewall Jackson, I Miss You Most In The Winter

Funny how the spring brings back your mem'ry
And the summer finds you always on my mind
In the loneliness of fall I can almost hear you call
But it seems I miss you most in the winter time
On the winter's not the world as cold as I feel
As I reach to touch the place you left behind
Anytime of the year you can always find the tear
But it seems I miss you most in the winter time

[guitar]

Did you tell him how the snow fell as you left me
But I'm sure he was with you all the time
Can you send me down your love to warm me from above
Don't God know I miss you most in the winter time
Don't God know I miss you most in the winter time
