

Stonewall Jackson, One Look At Heaven

You were my one look at heaven I was closer than I've ever been before
You were my one look at heaven but you left me just outside the door

Around your head there was no halo upon your shoulders were no wings
But to me you'll always be an angel for that's the way I see you in my dreams
You were my one look...

[fiddle]

This earth was never meant for paradise and you were never meant for me
But you gave me one look at heaven that no one can take away from me
You were my one look...
