

# Stonewall Jackson, You Saw Me Off (But Will You

Month after month I have ridden this so best oh how tired and weary I have been  
When I get home well it still be the same with us  
You saw me off but will you see me in  
When we get to the station will you be standing there  
To put your arms around me once again  
I know you've got my letters I've thought that you still care  
You saw me off but will you see me in  
My lonesome heart keeps saying just don't worry  
You've missed me just as much as I've missed you  
It won't be long but I'm in such a hurry  
If you're not there I'll just be passing through  
Yes mile after mile I have ridden this old bus oh how tired and weary I have been  
When I get home well it still be the same with us  
You saw me off but will you see me in you saw me off but will you see me in
