

Storm Queen, Look Right Through (MK Remix)

Talk to me /9x

Talk to me baby /8x

I'm quite sure
That you never knew
All the pain that I've been through
Even this morning
Looked outside my door
For your letter on the floor
Seven long years
Of moving through the streets
Letting people in
But they don't talk to me
They look right

They want in
But they don't talk to me /8x
They look right through
But they don't talk to me
They look right through
But they don't talk to me
They look right through
But they don't talk to me
They look right through
But they don't talk to me
They look right through

Burning in my eyes /3x

They want in
But they don't talk to me /8x

They look right through,
They're looking right through me /3x
I'm wondering baby
Am I a piece of glass
In your mind
