

Stormwarrior, Signe Of The Warlorde

Thunder roars, lightning strikes
A clash of steele shakes the ground
Warcries, hordes collide
The raging battle, a mighty and glorious sound

Deathblows, fatal defiance
Free our clans from the siege
Fight for the strong alliance
Defend the ancient belief

Rise, stand against the tyranny, pledge allegiance to this war
...beware the return of our gods

In the sign of the warlorde we will ride
Delivering the faith in honour and pride
Hail to Odin, the father of gods
Glory to thee, in the sign of the warlorde

Eyes of wrath, hearts of vengeance
Descendants of the forefather's age
March for deliverance
Assailing with furious rage

[Bridge]
[Chorus]

[Solo: Lars/Scott/both/both/both]

In the sign of the warlorde we will ride
Delivering the faith in honour and pride
Hail to Odin, the father of gods
Glory to thee, in the sign of the warlorde
