

# Story Untold, Don't Fall In Love With Me

Love was dead  
Had made it's bed  
At least in my head  
I used to be ok with being alone  
With many friends on my phone  
Thought my heart was made of stone  
Before the day you walked into my life  
It sucks I can't walk into yours

'Cause even if I fall in love  
I'll stay away from you  
'Cause you don't wanna fall in love  
With someone just like me  
Even if I fall in love  
I'll stay away from you  
It's best if I'm sad on my own  
So I'll run away from you  
I'll run  
I'll run away from you  
I'll run away from you

You can't see  
How dark it gets inside of me  
And all of my anxieties  
I wish I wasn't scared of opening up  
Stop being fucked up  
Stop covering up  
I'm such a mess  
'Cause truth is love you  
And I am so obsessed  
I don't know what to do

Even if I fall in love  
I'll stay away from you  
'Cause you don't wanna fall in love  
With someone just like me  
Even if I fall in love  
I'll stay away from you  
It's best if I'm sad on my own  
Even if I fall in love  
I'll stay away from you  
'Cause you don't wanna fall in love  
With someone just like me  
Even if I fall in love  
I'll stay away from you  
It's best if I'm sad on my own  
So I'll run away from you  
I'll run  
I'll run away from you  
I'll run  
I'll run away from you  
I'll run  
It's best if I'm sad on my own  
So I'll run away from you  
I'll run  
I'll run away from you  
I'll run  
I'll run away from you  
I'll run  
It's best if I'm sad on my own  
So I'll run away
