

Strange Celebrity, Control

I feel feelings from long ago
Branded on my soul
Welcome to my show
I've been searching through the past
Through the things that didn't last
I've been coming up short
I wanna be where you are
(Chorus)
I don't want to wait anymore
I've tried, and I don't wanna lose this time
I don't want to wait anymore
It hurts me so that I feel I've lost control
I deal dealings in my mind
From memories left behind
That keep running through my head
I try so hard but always trip
You're at my fingertips
Tellin me this love's not
I wanna be where you are
(Chorus)
Just give me half a chance
And I won't let you down
I feel feelings from long ago
Branded on my soul
Welcome to my show
(Chorus)
