

# Strange Celebrity, Perfect World

All alone the ballerina dances before my eyes  
She turns her head away but as the music plays she cries  
If only I could make her see this prison that is keeping me  
Outside

In her perfect world  
She could show me how

(Chorus)

To find my way to love

To find my way to love

I'll walk a thousand miles

Under starlit sky

Till I find my way to love

In between these walls that cage me in I feel her breath

Her sadness enters me

As I watch the winter leaves fall on her dress

The vision in my mind's so real

I still can't conceal my emptiness

In her perfect world

She would show me how

(Chorus)
