

Strangelove, World Outside

Out there
Out so far I know you can't see
Oh so close, so close you can't see
They are living their lives just to crucify me
In here
I wonder what the meaning could be
I wonder why it's following me
I am living my life to pretend that I'm not me
World outside my window
Falling down
World outside my inside
Upside down
Out there
They are out to get me you know
They're trying to find out just what I know
They are using their time just to petrify me
Oh let me go
Let me go, I don't know,
I don't know, I don't know
World outside my window
Falling down
World outside my inside
Upside down
Everybody has told me
That they know what is true
Everything that they've told me
Amounts to nothing I can use
In there
In so deep that no one can see
Over what they don't want to see
They are living this lie in order to single out me
In here
I want to stay in here, make it clear
Stay away from me, can't you see
I am living this way just to keep you away
World outside my window
Falling down
World outside my inside
Upside down
World absurd
World outside
