

Stratovarius, Million Lightyears Away

I dont know what to do
I dont know who you are
Im calling from the silence
We have gone too far
I try to understand you,
your life has been so cruel
Please try to see it my way
Ive got something to say
All those years Were not in vain
Even though there was much pain
I try to learn from my mistakes
I want to make it up to you

A Million Light Years away from you I am
A Million Light Years away from you
I hope that youd respect my Honesty and faith
And maybe youd forgive me
If I could make you see
I want to say Im sorry
For what I did to you
Ill get on with my life
I hope you do that too
All the years...
