

# Stratovarius, Run Away

Run the other way  
Wipe your tears away  
The pain is here to stay  
Nothing in the way  
Take the clouds away  
There's nothing more to say  
There's nothing more to say

Run away  
I will remember you  
Run away  
I will remember 'til I die

Never wanna die  
Drowning in the sky  
Like rats who left the trap  
Was it just a game  
Only doubts remain  
We're drowning in the pain.
