

# Strawberry Alarm Clock, Sit With The Guru

Life's created, automated  
Yesterday's invalidated  
Hip mankind on, turn your mind on  
Sit with the guru  
Meditation, ooo-ooo, high, high where eagles fly  
Leave today untouched in the sky  
Stretch out your mind to humanity  
How many tomorrows can you see

Good life livin', party givin'  
No one walks who can be driven  
Blunt the starkness, light the darkness  
Sit with the guru  
Meditation, ooo-ooo, high, high where eagles fly  
Leave today untouched in the sky  
Stretch out your mind to humanity  
How many tomorrows can you see?  
How many tomorrows can you see?

Pussy willows, dew-kissed pillows  
Silver cloud puffs up and billows  
Full potential, transcendental  
Sit with the guru  
Meditation, ooo-ooo, high, high where eagles fly  
Leave today untouched in the sky  
Stretch out your mind to humanity  
How many tomorrows can you see?  
How many tomorrows can you see?
