

Stray Kids (□□□□ □□), I am YOU

You filled up my emptiness
Only you could fill it up
Just by being by my side
You gave me strength
I couldn't say anything else but thank you
But now I'm reaching my hand out to you
With you, who has taken my hand
I can shout of a bigger dream than before
If I can live for you, I can do anything
If you can shine brighter, I can be the darkness

I'll stay by your side
Will you stay in the same place as me?
It's too cold to be alone outside
You're here, so it's getting warmer

I am YOU, I see me in you
I know when I'm with you
In the same place, in the same time
I can overcome anything

I found YOU, I found me in you
I can see me in you
In the same place, in the same time
Let me run, let me run, let me run along with YOU

You shined on me when I didn't even know myself
I didn't know and I was lost
But from some point, I saw through the window
Because you spent the same time, the same day with me

Now my questions and your answers
Fit together like a puzzle
My worries and your worries
Intersect
Our chemistry is like a fantasy, every moment
Is so perfect when we're together
Through you, I see me and through me
You see yourself, such a great scene

I'll stay by your side
Will you stay in the same place as me?
It's too cold to be alone outside
You're here, so it's getting warmer

I am YOU, I see me in you
I know when I'm with you
In the same place, in the same time
I can overcome anything

I found YOU, I found me in you
I can see me in you
In the same place, in the same time
Let me run, let me run, let me run along with YOU

Yeah stay by my side
Yeah I need you right by my side now
Will you be on my side? Let's run with our footsteps in sync
We're going side by side, I wanna go with you
Promise me
I see myself in you

Stay together
You and I, you and I, you and I, I'm by your side

Always, going toward the same place as you
You and me, you and me, you and me
Can't compare you with anyone else
Stay together
You and I, you and I, you and I, I'm by your side
Always, going toward the same place as you
You and me, you and me, you and me
No one can replace you
I am YOU
