

# Straylight Run, Buttoned Down

What it was wasn't my fault  
If i would have known  
But who could have known  
Cameras and the kids  
Candid and the kindling (?)  
We're fighting them off  
They've done it again  
What did her friends say  
Who was involved  
Oh call it all off  
Cause i should have known but  
Who could have known  
Who could have known  
The needles the space  
Time cant erase  
And buttoned down  
You'll get the best of me  
But throughout it all  
The rise and the fall  
Buttoned down  
You'll get the best of me  
On the way back to the bank  
His heads sinking low  
He should have known  
How hard did it come  
When was it that you  
Lost your soul  
What does it take  
What did they make you  
What do you know  
Would you have done it again again again  
Now we'll let you in but we should have known  
We should have known  
The needles the space  
Time cant erase  
And buttoned down  
You'll get the best of me  
But throughout it all  
The rise and the fall  
Buttoned down  
You'll get the best of me  
Now buttoned down  
You'll get the best of me  
Buttoned down  
You'll get the best of me
