

# Stryper, Lonely

Once upon a lonely night  
Emptiness filled my heart  
And I realized my life wasn't right  
Searching and not finding  
Day after day  
Then I called upon your name  
And I just want to say  
I was lonely, lost without your love  
Sad and lonely without you  
Your the only one that I'll ever love  
I need you  
All I'll ever need is you  
Cause you are everything  
I've never seen a love that's so true  
The search is over now for me and forever more  
And I'll never have to be lonely anymore  
I was lonely, lost without your love  
Sad and lonely without you  
Your the only one that I'll ever love  
I need you
