

# Stryper, Something

Verse 1:

I'm alive, but am I living?  
If I'm in fear of who I long to be  
Of myself, I'm unforgiving  
I'm grasping hope when I believe

Chorus:

We all need Something  
We all need Something more  
We all-we all-we all-we all  
We all need Something else  
And Something to live for

Verse 2:

Life is short, yeah that's a given  
What's here today is gone tomorrow  
In a world that's lost and driven  
To find the Way is to know

Chorus:

We all need Something  
We all need Something more  
We all-we all-we all-we all  
We all need Something else  
And Something to live for

We all-we all...

We all-we all...

We all need Something  
We all need Something more  
We all-we all-we all-we all  
We all need Something else  
And Something to live for

We all-we all-we all-we all  
We all need Something else  
And Something to live for
