

# Sub-Urban Tribe, Far Side Of The Sun

Don't be afraid, just come inside  
it's alright  
lay down, unwind yourself  
In this room we won't be disturbed  
my little girl  
aim deep  
shoot slow  
Let yourself go and you will find  
peace of mind  
we disappear into the haze  
One with earth  
One with heaven  
Take me to the far side of the sun  
Take me to the far side of the sun  
we disappear into the haze  
Take me to the far side of the sun  
we disappear into the haze  
just let go  
Take me to the far side of the sun  
we disappear into the haze
