

Subb, Despair

I always say that things are wrong even if they're right
Cause everything I've been through never turned out right
Try to sympathize and understand my point of view
Life's a lie ,life's a gift, do what you want with it
Time! Will patch up things
Time! Will find a way
I hope everything will be O.K.!
Psycho therapy have helped me love my enemy
Smile, smile, smile and take a walk for a while
After months and months of reflection
Don't know what to do, so I need a rescue
(Chorus)
(Bridge)
(Chorus x2)
