

Subb, Educated Mind

Are you just like me, binded by authority?

The violence in the news today, it makes me wanna say;

"Fuck you and all your lies, you'll never realize

what makes the world turn, what will make you burn!!!"

if you wanna waste your life away, doing nothing right

and if you want to save the world, then you'd better do it now

An educated mind ain't no fucking suicide (x4)

So spare me your concern 'bout a country that you've never seen

One-sided frame of mind and an attitude all filled with greed

Anxiety is building while the middle-class is crushed
