

# Subdudes, Light In Your Eyes

Is this part emotion,  
You know we've been on a long ride  
Standin' in a cloud of smoke  
This was more than just passin' time  
I once had a vision, like an old time love story  
and I long to whisper in your ear  
watch the light in your eyes, light in your eyes  
I hear another faint cry, behind all your boldness  
all my friends, they know that I try  
But you can only do your best  
I once had a vision, like an old time love story  
and I long to whisper in your ear  
watch the light in your eyes, light in your eyes  
Each and every night, you move so freely  
you stay so young at heart  
You must have had a head start on me  
And to know the beauty of the wind to have her like a friend and to love  
and learn so from her is a picture of the places we've been in  
I once had a vision, like an old time love story  
and I long to whisper in your ear  
watch the light in your eyes, light in your eyes  
My my baby let it shine  
you know that I know that you might have had a  
head start on me but I'm going to catch up to you  
you know you know you always stay so young at heart  
that's why I'm trying to catch up to you  
and watch the light in your eyes  
the light in your eyes
