

Subhumans, I Don't Wanna Die

It's getting out of hand, they don't understand
They never ever will, they never ever can
I don't wanna live if I can't be free
The system kills but it won't kill me

I don't wanna die

Can't run away, come back someday
Cos it won't change whatever you say
Fear and guilt up to the hilt
They can't escape from the walls they've built

They gave me a gun and told me to run
Defend your country from the atom bomb
I said "why", they couldn't reply
The system kills but I don't want to die
