Subhumans, I Don't Wanna Die

It's getting out of hand, they don't understand They never ever will, they never ever can I don't wanna live if I can't be free The system kills but it won't kill me

I don't wanna die

Can't run away, come back someday Cos it won't change whatever you say Fear and guilt up to the hilt They can't escape from the walls they've built

They gave me a gun and told me to run Defend your country from the atom bomb I said "why", they couldn't reply The system kills but I don't want to die
