

Submersed, I Feel The Change

It's cold here
Living in my world of fear
I'm scared to let you know
And let my feelings show
How wrong i've been to wait this long

I feel the change (I feel the change)
Comin' over me again
And I can't seem to let it go
I feel the change (I feel the change)
I cannot explain inside
And I can't seem to let you go

To live free
From the grip of misery
That piece I'd love to know
Where once I used to go
Before I was locked in your hold

I feel the change (I feel the change)
Comin' over me again
And I can't seem to let it go
I feel the change (I feel the change)

I cannot explain inside
And I can't seem to let you go (Go)
I can't let it go

Let it go

Holdin' on now its takin hold
I can never go there

I feel the change (I feel the change)
Comin' over me again
And I can't seem to let it go
I feel the change (I feel the change)
I cannot explain inside
And I can't seem to let you go

I feel the change (I feel the change)
I feel the change (I feel the change)
And I can't seem to let it go
I feel the change (I feel the change)
I cannot explain inside
And I can't seem to let you go
