

# Suburban Legends, All Around The World

(Chorus:)

All around the world and all I wanna be is missing you  
But give me one more chance and I swear I will be kissing you  
Been there, done this and that I'm sick of it  
The one you love you dream about can never touch I want that kiss

This attraction is weighing heavy on my head  
The satisfaction baby of you loving this man  
And I  
Can't live without it  
And all the million ways I'd never think to stray  
Girl, you're acting much to great for me to see  
My life with anyone else

(Chorus)

I want that kiss

Oh my god it sucked the air out of the room  
I point the blame of this action on you  
You get my heart to start pumping and the jokes start dropping on  
I really thought that you knew

Ain't nobody, is ever gonna love you better  
Seal it with a kiss it's my heart that's in this letter

(Chorus)

Ain't nobody, is ever gonna love you better  
Seal it with a kiss it's my heart that's in this letter

(Chorus)

I want that kiss  
I want that kiss
