

# Subway To Sally, Where Is Lucky

I'm over here in the sand  
a foreign face in foreign land  
and every hour is like a year  
I'm growin' old while over here  
we're all for one and one for all  
waitin' for the sky to fall  
and when it hits some will die  
but if I don't you'll hear me cry

tell me where is Lucky  
Lucky was my only friend

I never met the enemy  
still I suppose he's just like me  
he loves his kids he loves his flag  
and fits inside a body bag  
and over there on the other side  
the other guys can't sleep tonight  
the fire's rainin' it's rainin' down  
and through it all I hear the sound

tell me where is Lucky  
Lucky was my only friend

and if you wanna' tll me something  
tell me why we couldn't stay together
