

Sueco, Last Thing I Do

Ooh-oooh

Goddamn girl, it could've been us (It could've been us)
I've been thinking about it way too much (Way too much)
All the things, all the things I wish I knew (I wish I knew)

Heart on my sleeve like a fashion statement, uh
But it's saved and I can't erase it, uh
Can't sit through the situation
I tried running away, can't escape it

So sorry, I wasted all my apologies

I had to fuck it up to figure it out
Goddamn girl, it could've been us (It could've been us)
I've been thinking about it way too much (Way too much)
All the things, all the things I wish I knew (I wish I knew)
Goddamn girl, it could've been us (It could've been us)
Typical me fuckin' it up (Fuckin' it up)
And take it back, take it back, and press undo
If it's the last thing I do

If it's the last thing I do
If it's the last thing I do

Two weeks to my replacement, uh
Meanwhile my bed is vacant
Is my pain your entertainment?
It kill 'em off to see my heart breaking

So sorry, I wasted all my apologies

I had to fuck it up to figure it out
Goddamn girl, it could've been us (It could've been us)
I've been thinking about it way too much (Way too much)
All the things, all the things I wish I knew (I wish I knew)
Goddamn girl, it could've been us (It could've been us)
Typical me fuckin' it up (Fuckin' it up)
And take it back, take it back, and press undo
If it's the last thing I do

If it's the last thing I do
If it's the last thing I do (Ooh-oooh)
(Do ooh-oooh)
