

# Suede, Animal Nitrate

Like his dad you know that he's had  
animal nitrate in mind  
Oh in your council home he jumped on your bones  
now you're taking it time after time

Oh it turns you on, on, now he has gone  
Oh what turns you on, on, now your animal's gone?

Well he said he'd show you his bed  
and the delights of the chemical smile  
So in your broken home he broke all your bones  
and now you're taking it time after time

Oh it turns you on, on, now he has gone  
Oh what turns you on, on, now your animal's gone?  
What does it take to turn you on, on  
now he has gone?  
now you're over 21?  
now your animal's gone?  
...Animal, he was animal, an animal...
