

Suede, Animal Nitrate

Like his dad you know that he's had
animal nitrate in mind
Oh in your council home he jumped on your bones
now you're taking it time after time

Oh it turns you on, on, now he has gone
Oh what turns you on, on, now your animal's gone?

Well he said he'd show you his bed
and the delights of the chemical smile
So in your broken home he broke all your bones
and now you're taking it time after time

Oh it turns you on, on, now he has gone
Oh what turns you on, on, now your animal's gone?
What does it take to turn you on, on
now he has gone?
now you're over 21?
now your animal's gone?
...Animal, he was animal, an animal...
