

Suede, Cool Thing

You are the loaded gun sticking in your face
Like a stupid child on her roller skates
Like a bad sound now that makes you swing
Like a real mistake
Like a cool thing

She like a jet plane gliding across your mind
Like a butterfly, like a lullaby
Like a bad kid playing on the swing
Like a real mistake
Like a cool thing

And she gonna walk like a bass line
And she gonna talk with her skin
And she gonna stalk you like a feline
Like a cool thing

She slipping off like static across the screen
Don't know where she's gone, don't know where she's been
She's the bad sound now that makes you swing
She's a real mistake
She's a cool thing

And she gonna walk like a bass line
And she gonna talk with her skin
And she gonna stalk you like a feline
Like a cool thing

And she gonna walk like a bass line
And she gonna talk with her skin
And she gonna stalk you like a feline
Like a cool thing

Walk walk like a bass line
Talk talk with your skin
Stalk you with a feline mind
Like a cool thing
Like a cool thing
Like a cool thing
