

# Suede, God's Gift

you raised me on whitesnake  
on prince tapes, on summer sounds  
and you saved me and gave me  
dance songs and hand-me-downs

you said that we were just good friends  
but we jump red lights all the way to the end  
there you go, there you go again

you looked at me in a restaurant  
and a lonely tune was the only sound  
and you took me out under centre point  
and we got lost in the lonely crowd

you said that we were just good friends  
but we jump red lights all the way to the end  
there you go, there you go again

and you said that we were just good friends  
but we jump red lights all the way to the end  
god's gift, there you go again
