

# Suede, Oceans

We sit in silence  
A marriage license  
Is all you know  
All you know, all you know

We sit and chew gum  
Watch television  
And you know  
And you know, and you know

But there's oceans between us  
Light years that screen us  
Oceans that drift away  
Oceans that fade to grey

We sit and rot here  
Resenting each year

Will you go  
Will you go, will you go?

We sing the old songs  
The beat box plays on  
And you know  
And you know, and you know

But there's oceans between us  
Light years that screen us  
Like oceans we drift away  
[Like] oceans we fade to grey

Between us there's oceans  
There's life in slow motion  
Quietly we drift away  
Quietly we fade to grey
