

Suede, See That Girl

she walks the streets of summer
walking all day
she likes the steel inside her
nothing to say

she lives inside the winter
walking around
stoned like the wheels in real life
wandering round

you see that girl
you see that girl
when she falls, she'll fall forever
in this dogshit world

she loves the lights inside her
wandering around
she lets the needle guide her
and slowly go down

slung like the voices in her
into the dark
time has no choices in her
stoned in a car

you see that girl
you see that girl
when she falls, she'll fall forever
in this dogshit world

you see that girl
you see that girl
when she falls, she'll fall forever
in this perfect concrete world

you see that girl
you see that girl
when she falls, she'll fall forever
in this dogshit world

you see that girl
you see that girl
when she falls, she'll fall forever
in this perfect concrete world
