

Suede, The Big Time

I watch the slow hand kill the day
See my starring role tick away
I watch the skyline for him to come
And when he comes along we'll be gone

And we'll go into the city
Into the light
We'll be there in the headlines
There overnight

Cause this is the big time
This is the way
Now he's in the big time
He'll show you the way

This is the big time
This is the way
Now he's in the big time
And you're in the way
