

Suede, When The Rain Falls

Come out tonight in the puddles
Splash some love across the sky
Just you and I bursting bubbles
As the sky is about to cry

When the rain falls
There's magic in our lives
When the rain falls
We're happy deep inside
When the rain falls
It cleans away the corners of our minds

When all the world looks like Atlantis
And cars sit rusting in the drives
Just step outside and hit the concrete pavement
As the rain falls down for you and I
When the rain falls
The pretty people run
When the rain falls
The colours cloud the sun
When the rain falls
We'll sit and watch the children hurry home
Rain falls
Rain falls
Rain falls

And when everything is blue or green or green or blue or grey
I cross the street to catch the beat of my heart
And I watch it all cos there's nothing else to do today
And I watch it all fall so hard
