

Sugababes, Living For The Weekend

Oh, I've been working all week I'm tired
Yeah I've been working all week and I'm just living for the weekend

Hey, I've got some money I've just got paid
Got some money and I can't wait
At six o'clock, I'm out of here

Out there tonight is the night of my life got my name on
Run down the street Adidas on my feet, I'm on fire

Chorus
Working all the time, work is such a bind
Got some money to spend, living for the weekend
When it gets too much, I live for the rush
Got some money to spend, living for the weekend

Oh man, yeah I've been working all week I'm shot
Yeah I've been working all week for what?
Just living for the weekend

Oh shit! So my clothes are all counterfit
So my name isn't on the list
No you can't come in, so go home boys

Slip round the back look at that there's a cracked toilet window
Drop to the floor cold as ice through the door, I'm on fire

Chorus
Working all the time, work is such a bind
Got some money to spend, living for the weekend
When it gets too much, I live for the rush
Got some money to spend, living for the weekend

Chorus
Working all the time, work is such a bind
Got some money to spend, living for the weekend
When it gets too much, I live for the rush
Got some money to spend, living for the weekend

Can you feel it?
Feel the pressure rising
Pushing down on me, oh Lord
Pressure, pressure, pressure, pressure, pressure
Feel the pressure
Pressure, pressure, pressure, pressure

Living for the weekend x8
