

Sugababes, No Can Do

I've been thinking about
How you've been messing around
Why do you get your kicks from hurting me?

I've tried on giving you up
But now it's time to stop
'Cause boy I see that you're no good for me

If you really wanted my love so desperately
Then you should have taken time and try to rescue me!

Sorry, no can do
'Cause you're never really gonna make it better
So forget forever
Now it's time to face it boy we're through
'Cause I ain't got time for your conversations
So sorry, no can do

Sorry, sorry
Sorry, sorry

Don't try to sweet talk me no more
'Cause I've heard it all before
What makes you think I'd want you back again?

And now my mind has been made out
And I have had enough
You've had your chance and now this is the end

You could've handled things a little differently
But now you're on your own and you'll be missing me!

Sorry, no can do
'Cause you're never really gonna make it better
So forget forever
Now it's time to face it boy we're through
'Cause I ain't got time for your conversations
So sorry, no can do

It don't matter what you say
'Cause I've gone my separate way
There is nothing you can do to make me change my mind
It don't matter what you do
'Cause I'm done with loving you
Don't you bother turning back the hands of time

Sorry, no can do
'Cause you're never really gonna make it better
So forget forever
Now it's time to face it boy we're through (face it boy, face it boy, through..)
'Cause I ain't got time for your conversations (no...)
So sorry, no can do (do)

Don't try and even call me on the telephone
It don't mean a thing 'cause I'm on my own
Don't try and even call me on the telephone
It don't mean a thing 'cause I'm on my own
Don't try and even call me on the telephone
It don't mean a thing 'cause I'm on my own
Don't try and even call me on the telephone (so sorry no can...)
It don't mean a thing 'cause I'm on my own
Don't try and even call me on the telephone
It don't mean a thing 'cause I'm on my own
Don't try and even call me on the telephone (no.. no..)

Sorry no can do
