

# Sugar Ray, Glory

It's good to see you here again  
I thought you almost died  
Remember when we were listening  
You barely had to try  
Giant falling from the sky  
Please tell me lie after lie  
Now I know they're gonna take my glory  
From the ones I left behind  
And I know their gonna say their sorry  
But I'll never change my mind  
Everybody's gonna find me out  
I'm going down this time  
Everybody's gonna know about  
The mess you left behind  
Giant falling from the sky  
Please tell me lie after lie  
Now I know they're gonna take my glory  
From the ones I left behind  
And I know their gonna say their sorry  
But I'll never change my mind  
Hey hey hey heyahhhhhh [x2]  
You say I'm lazy than you lie around  
You tried to put me down  
I know you're crazy when I see  
You spin your head around  
Giant falling from the sky  
Please tell me lie after lie  
Now I know they're gonna take my glory  
From the ones I left behind  
And I know their going say their sorry  
But I'll never change my mind  
Hey hey hey heyahhhhhh [x2]  
Now I know they're going to take my glory  
And I know their going to say their sorry  
And I know their going to say their sorry  
No I'm never going to tell my story
