

Sugar Ray, Out The Window

When it's over
That's the time I fall in love again
And when it's over
That's the time you're in my heart again
And it never ends

All the things that I used to say
All the words that got in the way
All the things that I used to know
Have gone out the window
All the things that she used to bring
All the songs she used to sing
All the favorite tv shows
Have gone out the window

I'm missing you
I never knew how much she'd loved me
I'm missing you
I never knew how much you meant to me
I need you and when you go go go go
I know, it never ends, never ends

All the things that I used to say
All the words that got in the way
All the things that I used to know
Have gone out the window
All the things that she used to bring
All the songs she used to sing

All the favorite tv shows
Have gone out the window

When it's over
Can I still come over
In the middle of the night
When it's over
Is it really over
Or are you coming back this time, this time, this time

All the things that I used to say
All the words that got in the way
All the things that I used to know
Have gone out the window
All the things that she used to bring
All the songs she used to sing
All the favorite tv shows
Have gone out the window

All the things that I used to say
All the words that got in the way
All the things that I used to know
Have gone out the window
All the things that she used to bring
All the songs she used to sing
All the favorite tv shows
Have gone out the window
