Sugar, Tilted

I only do these things to freak you out I never wanted you to doubt me I believe you/ Do I believe you I try to block you out to hear myself I can't believe I'm thinking to myself Would I leave you/ In such suspense

I let it go and go and go But what you're thinking through the silence I really wish you understood A couple of words get so much mileage

I never felt an urge to say a word I'd rather listen to the din of Other people closing in one me/ I lay in bed And think of words that you should hear I fall asleep and then they disappear A fall from grace/ From memory

I hear a voice inside the silence Speak your peace and all's forgotten I hear the static on the line Remember how this all got started

Remember/ Remember/ It's tilted

I turn away a minute disappears
I turn away in shame when I don't hear
What you're thinking/ Tell me what you're thinking
You take it out on me
You're not flaking out on me, are you
Turn it tilted/ Hey wait a minute

I never wanted you to be upset But I can see you're trying to forget What was said/ What was said Don't try to hang me up again Don't try to hang up on me wait up

Turn it tilted/ I need help it's

Remember/ Remember/ It's tilted
