

# Sugarcult, Destination Anywhere

Somebody help me get out of this place,  
Too many words that confuse what I say,  
Call in the victims of probable cause,  
Give me the keys to get out of this box,

Keep both hands up on the wheel  
Destination anywhere,  
Keep both hands on the wheel,  
Take control,

I can't let myself fall down,  
I can't help myself right now,  
I can't let myself fall down.  
If I can't be myself,  
I fall down,

Somebody help me get out of this place,  
Too many fools with a smile and a face,  
Somebody help the prescription is wrong,  
Never awake unless I'm faking,

Keep your head on straight,  
Make the kids behave,  
Keep your mind awake,  
If I can't be myself I fall down.
