

Sugarcult, First Band On the Moon

Turn up your stereo
I'm coming in loud and clear
Making it with your girlfriend
You never knew she was here

We're gonna be the first band on the moon
Breaking every rule that rings in tune
I'm staring back at the earth and I don't like what I see
I'm gonna fall into hell with the radio this way
And you want to hate me, but you cant deny...you're in love

Turn on your television
It's you you want to see
You've got your own freak show
And were the stars this week

We're gonna be the first band on the moon
Breaking every rule that rings in tune
I'm staring back at the earth and I don't like what I see
I'm gonna fall into hell with the radio this way
You want to hate me, but you cant deny you're in love

We're gonna be the first band on the moon
We're breaking every rule that rings in tune
We're gonna be the first band on the moon
I'm staring back at the earth and I don't like what I see
I'm gonna fall into hell with the radio this way
You want to hate me but you cant deny it...you're in love
You want to waste me but you cant deny it...you're in love
You want to hate me but you cant deny...you're in love
