

Sugarcult, What You Say

Wait around if the fire's there don't put it out
Lay me down emotions overated now-rated now

I don't wanna hear another word you say
I don't wanna waste another day
What you say, What you say, What you never say
Everything's a lie and your afraid

Wait around for pic-up lines and put-me downs
Scream and showt, making up and making out

I don't wanna hear another word you say
I don't ever wanna waste another day
What you say, What you say, What you never say
Everything's a lie and your afraid

Lay me down emotions overated now
Wait around if the fire's there don't put me out

I don't ever wanna hear another word you say
I don't ever wanna hear another word you say
What you say, What you say, What you fucking say
Everythings a lie and your afraid

Get me, get me out, let me, let me out, get me, get me out

Wait around if the fire's there dont put it out, put me out, put it out
