

# Sugarland, Just Might (Make Me Believe)

I got miles of trouble spreadin' far and wide  
Bills on the table gettin' higher and higher  
They just keep on comin', there aint no end in sight  
I'm just holding on tight...  
I've got someone who loves me more then words can say  
And I'm thankful for that each and every day  
And if I count all my blessings, I get a smile on my face  
Still hard to find faith..

Chorus:  
But if you look in my eyes  
And tell me we'll be alright  
If you promise never to leave You just might make me believe

Its just day to day tryin' to make ends meet  
What id give for an address on easy street  
I need a deep margarita to help me unwind  
Leave my troubles behind...

Repeat Chorus

I used to believe in us  
When times got tough  
Lately I'm afraid that even love is not enough

Chorus:  
But if you can look in my eyes  
And tell me we'll be alright  
If you promise never to leave you just might make  
Oh, you just might make me  
You just might make me believe
