

Sugarplum Fairy, Bring Danger

Something brought me here to stay
But for a reason hard to see
Eighteen years they planned my way
And just like that, hey you are free

Am I allowed to change the rules?
Am I to question everything?
A useless generations fool
In the eye of those who bring

Me to this
I got nothing to loose

Bring danger to me
And I will catch the bullets
Danger to me
Bring something new to me
Bring danger to me
And we will be where we were
Promised to be
Bring danger to me

They tell you, you are nothing
And that nothing comes for free
And think that you are special
And that you will ever be

I still and always will believe
That the future's meant for us
If we only keep to be naive
Then we'll get across

Until then
I got nothing to loose

Bring danger to me
And I will catch the bullets
Danger to me
Bring something new to me
Bring danger to me
And we will be where we were
Promised to be
Bring danger to me

Bring danger to me
And I will catch the bullets
Danger to me
Bring something new to me
Bring danger to me
And we will be where we were
Promised to be
Bring danger to me

I made a promise to you
That we would mean something
Someday maybe
Who knows? Who knows?
You can save, save me

Bring danger to me
And I will catch the bullets
Danger to me
Bring something new to me
Bring danger to me

And we will be where we were
Promised to be
Bring danger to me

Bring danger to me
And I will catch the bullets
Danger to me
Bring something new to me
Bring danger to me
And we will be where we were
Promised to be
Bring danger to me

Dawn
On and on and on
On and on and on
On and on and on
On and on and on
