

Sugarplum Fairy, Don't Wake Us Up

When my heart is true
It burns for you
Young burn faster too
So hurry you
Bring a bottle full of liquor in
Oh you're soaked with gin
And we live to win
Let's bury my soul in sin

Maybe we can go back and do it over again
Maybe it would be harder and harder then
Maybe we can go back and do it over again
Maybe it would be harder and harder then

When life makes it's turns
And my heart still burns
I fall deeper down
On the ground
On the motorways
All the dreams we chase
Young chase faster too
Say don't worry you

Maybe we can go back and do it over again
Maybe it would be harder and harder then
Maybe we can go back and do it over again
Maybe it would be harder and harder then

Whenever, wherever we go
The people just see our faults
Whenever, wherever we hide
They keep us tied we can not hide
Whenever the clever will talk
The people begin to walk
Together we will be denied
You and I
You and I

Whenever the clever will talk
The people begin to walk
Together we will be denied

Maybe we can go back and do it over again
Maybe it would be harder and harder then
Don't wake us up, it's harder then
Maybe it would be harder and harder then

Maybe we can go back and do it over again
Maybe it would be harder and harder then
Don't wake us up, it's harder then
Maybe it would be harder and harder then
