

Sugarplum Fairy, Marigold

And I say go go get it on
We pass out in the dawn
To make us both shake
It feels so good

Go go set it off
We last out through the rough
That was then it was when
We felt so good

Now you can take what you want
And take what you need
'Cause it ain't gonna worry me no more
'Cause you are not what I want
And I said do what you want
And do what you need
'Cause it ain't gonna worry me no more
'Cause you are not what I want
No no no no

Hey time don't mean a thing
And nothing it would bring
When I'm here you're near
We feel so good

Touch of heated skin
And sounds of breathing in
That was then it was when
We felt so good

Now you can take what you want
And take what you need
'Cause it ain't gonna worry me no more
'Cause you are not what I want
And I said do what you want
And do what you need
'Cause it ain't gonna worry me no more
'Cause you are not what I want
No no no no

Five years run by so fast
The good things never last
By your side I'm alright
And it feels so good

I know you inside out
And still you make me doubt
Here's to you here's for you
Hope you catch it too

Now you can take what you want
And take what you need
'Cause it ain't gonna worry me no more
'Cause you are not what I want
And I said do what you want
And do what you need
'Cause it ain't gonna worry me no more
'Cause you are not what I want
No no no no
