

Sugarplum Fairy, Sensation

I want you and I don't wanna wait anymore
Faster then any bullet blows
And I need you to kiss me from head to toe
Cause you're so foxy and it makes me go
Gave you all the answers
Gave you, made you all I had
Let me be remembered as the best of every band who
Ever had a brilliant plan so I ran and ran and what then
I started a rock 'n' roll band best of every band, that's me and my brothers' band
The Johnny's made the band, and our drummer made it real to live out our dreams
And why because I wanted you so
So then I wrote songs and I played them for you
And the morning story was my blues
