Sugarplum Fairy, She's All That

Was playing this outside your school girl
Will never get out of this era
Was having a tough time let's rumble
Better and better weather
Was looking at you through me window
17 years of me life had gone
Oh girl why are you so blue
Make me see the sun in you
I'm not even sure of that (He's not sure)
All I wanna do is to be myself (Be myself)
I'm not even sure of that all I wanna do is to shout
That I don't even know I care about it
It's another lifetime another lifeline
That I don't even know I care about it
It's another lifetime another lifeline
She's all that
Was living on the edge now
Stayed up from school I played the pool
Don't diss me kiss me
Make me see the sun in me
